Date: 11th November 2008

Dear David

We would like to take this opportunity to say thank you to the team at Greenstones.

We have been a client since our formation in October 2002 and in that time we have experienced many changes in the industry. Greenstones have always been a part of our business, not just an Accountancy Company, without their knowledge and guidance we most certainly would not be as profitable, and stream lined as we are today.

Nothing is too much trouble when you make the call, and unlike other Accountancy Practices and the Legal Profession in general " the charge meter does not start when they pick up the phone", in fact the set fees are exceptional value for money, and the monthly payment plan makes budgeting easier than a final end of year invoice. We have now recommended numerous other businesses to Greenstones, all of which are extremely happy with their services, the general consensus is that they wished they new about them long before!

To close I would like to compliment the whole team on their forward thinking, proactive approach to saving businesses and their owners valuable time and money, and allowing us as Company Directors to get on and manage our businesses and do what we do best.

Kind regards

S A Metcalfe  
Managing Director  
Rose Fire Engineering Limited
