Thanks for a Great Service

There are not many businesses you deal with these days where you can say that you have truly great service, where every communication is dealt with efficiently and courteously and who deliver the service to you on time, but Greenstones has been one business that I have been truly impressed with.

As a start up business I felt that I could call the staff any time and was always given helpful advice without having to worry "how much is this costing me" or "is this a silly question"!

They have always sent paperwork out on time without fail and have taken the time to explain when the tax return gets complicated.

A very patient David helped me set up my sage accounts and payroll system that was such a great help.

So thanks Greenstones for a great Service, where the friendly staff talk my language, the fees are straight forward and most of all for being a company that you can rely on.

Lorna Pears.
