Re: Testimonial for GreenStones

I knew what I wanted to do for my business idea, but I had no idea how to make it happen. Someone that I did some work for, referred me to GreenStones on hearing my problems with going solo, as they had used them for years and had nothing but good things to say about them.

Since that first meeting I went to I have never looked back. I was given good advice as to how to set up my business and this was always backed up with an explanation why it would be a good idea to proceed that way, which I have found reassuring especially as I had never attempted anything like this before.

Eighteen months on and the help and support is just as good as the beginning. Not only have they dealt with the scary stuff whilst letting me get on with what I know, on completion of my first year, I was given a consultation to move my business forward which being the loan director and employee of the company keeps you focused and motivated to achieve more.

All in all, the service of which I have received has been second to none. It has:

- Saved me money (which has more than paid for the fee)
- Made me money
- Saved me time
- Supported me through all those uncertain and scary moments

I would and do recommend without hesitation the services of GreenStones as they are friendly, professional and good value.

Thank you GreenStones.
